The Original **NON-SLIP** Ruler  
**grids®**

CGRST65

7 43285 00064 7

Item #CGRST65

Features Embedded  
Non-Slip Gripper Dots  
Made in USA

## Square It Up & Fussy Cut Triangle

### To Square It Up:

Place the vertical, horizontal & diagonal lines on any triangle to trim it up to 6 1/2".

### To Fussy Cut:

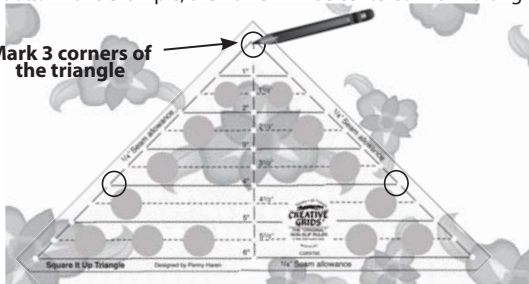

Center a design in the triangle printed in sizes ranging from 1" to 6". The drilled holes at 1 1/2" to 5 1/2" let you mark the finished size of the triangle. Connect the dots. Use the 1/4" seam allowance printed on the outside edge of the ruler to add the seam allowance to the triangle and cut.

**Designed by Penny Haren**

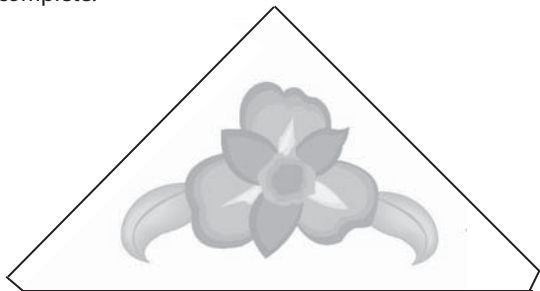

### Squaring Up or Fussy Cutting Triangles:

Cutting the fabric to showcase a particular design in the fabric is called fussy cutting. This technique adds drama and eye appeal to any project. The Creative Grids® Square It Up & Fussy Cut Triangle makes the process quick and easy. To fussy cut a triangle, center a design in a triangle – printed in 1/2" increments. Mark the corners of the finished size of the triangle through the drilled holes. Connect the dots. "In this example, the flower will be centered in a 4" triangle.

Mark 3 corners of the triangle

Trim the fabric  $\frac{1}{4}$ " away from the marked lines. (Use the  $\frac{1}{4}$ " seam allowance mark on the ruler.) It is that easy. The design will be centered in the triangle when the project is complete.
